

Line It Up

Sometimes it's hard to line up numbers and symbols in math problems. This grid of boxes can help.

- Use one box for most numbers and symbols.
- If solving for an equation, make sure the equal sign of the equation stays in the same column as you start each new row.
- For other problems, line up each new row by place values (ones, tens, hundreds, etc.).

1.		1	0	2				4.			3	2	6	
	+		8	4				8	2	6	0	8		
		1	8	6				-	2	4				
										2	0			
2.			6	4					-	1	6			
		-	1	0							4	8		
			5	4										
3.			1	2										
		×		3										
			3	6										

Line It Up

Name: _____ Date: _____

Class: Algebra Teacher: _____

Sometimes it's hard to line up numbers and symbols in math problems. This grid of boxes can help.

- Use one box for most numbers and symbols.
- If solving for an equation, make sure the equal sign of the equation stays in the same column as you start each new row.
- For other problems, line up each new row by place values (ones, tens, hundreds, etc.).

1.	y	=	<u>x</u>	,	x	=	2	0													
			5																		
	y	=	<u>2</u>	0																	
			5																		
	y	=	4																		
2.	y	=	8	x	,	x	=	3													
	y	=	8	(3)																	
	y	=	2	4																	
3.	y	=	3	+	x	²	,	x	=	5											
	y	=	3	+	(5)	²															
	y	=	3	+	2	5															
	y	=	2	8																	
4.	y	=	1	2	+	7	x	,	x	=	1	0									
	y	=	1	2	+	7	(1	0)													
	y	=	1	2	+	7	0														
	y	=	8	2
